

## The Murders of the Pure Men of Palestine as a Publicity Stunt and Election Wins for the Brutal Jewish entity's Lapid party

### Comment:

Nablus has been under siege by the Jewish entity's military for the past 16 days turning Nablus into an open air prison, blocking all entrances and erecting military checkpoints in the vicinity. An-Najah National University in Nablus moved its classes online as a result of the closures. The city has closed shops in solidarity of the martyrs mentioned above. As of this writing, every day news of a shaheed (martyr) at the bloody hands of the occupiers is being announced and 21 injured and 40 young men have been detained at random and those of accused of being involved with the Lion's Den (Areen al-Asoud).

The way the news is laid out – the Israeli newspaper Haartez headline reads "Israeli Army Destroys Lion's Den's Bomb Factory in Nablus" ... "bomb factory" ... blowing the victory horn as if it is a victory for them while it is a small old house and has primitive means to make small cocktail explosives as a form of retaliation against the IDF storming into Nablus. Whereas the army entered using sophisticated

technology and state of the art weapons to pinpoint individuals to assassinate them and destroy the house.

Nablus is classified under Area A (under Palestinian control); this means that according to the Jewish entity and the division of Palestine's lands – this area is to be off limits to the Jewish people and settlers however the Jewish's entity's army in a show of force with a large number of the military raided Nablus and held it under siege.

Now from another angle, from the political side, "Israeli" Knesset elections are scheduled to take place on November 1. Again in an attempt by the current Prime Minister Lapid to win the polls using the scarecrow tactics of "war on terrorism" yet the price paid is costly – taking the lives of many and injuring many more pure Palestinian young men. Here Lapid wants to boost his electoral ballots and his image as the capable leader for 'Israel', setting off operations throughout Palestine, including the raid on Jenin and Shufaat camp earlier.

What is more outrageous is the boldness of the Jewish PM calling on Palestinian Authority's Mahmoud Abbas to calm the Palestinians to restore peace in order to remain on the roadmap to peace.

Here shows the despicable character of the Palestinian Authority and how it accepts the collaboration and collusion against the pure people of Palestine, as the entrance into Old City of Nablus is highly sensitive and cannot be easily accessed without the tactical coordination of the PA Security Apparatuses to orchestrate the Occupier's entry. And here the public are aware of such coordination, they do not expect any type of support nor protection from these betrayers. Those frustrated and outraged support and sympathize with the new small faction called the Lion's Den as they have rejected any type of political aid, money and weapons from various Palestinian factions/ groups, this greatly alarmed the Jewish entity as the Lion's Den is a handful of young men but were able to succeed in small attacks on Jewish occupied forces. The different cities showed their solidarity with the martyrs and the people took to the streets by the thousands, this is a terrifying display to the Jewish entity.

If a sincere Islamic leadership were to be in full force against the entire Jewish entity and those who support it, the young and old would rush to be part of the Islamic army to eradicate the Occupation and its supporters and normalizers. The signs are visible for those to see the results of a small fledgling group that mortified the Jewish regime, imagine if an Islamic army under a sincere Islamic leadership were to take charge. It would be a glorious victory and liberation for the Blessed Land of the Aqsa and Palestine, thus setting off a domino effect of liberation of the surrounding Muslim lands one after another from tyranny and oppression.
