Comment:

India is always portrayed as the top intimate by every regime of Bangladesh. The current administration under Sheikh Mujib's daughter, Sheikh Hasina, has already set a milestone and example to the world of being 'partners and associates' with this 'friendly' neighboring state! India earns their third top most foreign remittance from Bangladesh. More than a million Indians work in Bangladesh with or without work permits. Hasina, without any second thought, obeys India. After all these, India and Bangladesh have one of the bloodiest borders in the world. According to the human right organization, Odhikar, between the years 2000 and 2018, BSF killed 1144 Bangladeshi citizens, injured 1078, abducted 1367, raped 15, looted 157, pushed-in 354, etc. This statistics is only the official records. Is this the behavior of a friend or that of a hateful enemy? But our agent ruler Hasina is passing is shamelessly serving this Mushrik country by every means possible at the cost of the blood of the people and sovereignty. Even though the people of Bangladesh are now deeply traumatized by all these events, they realize that the only hope for them is to bring back the rightly Khilafah Rashidah (rightly guided Caliphate) on the method of Prophethood.
