

## EU's Embassy in Kenya: A Neocolonial Plot to Stranglehold its African Colony!

### News:

The European Union (EU) Mission in Nairobi has unveiled a new embassy making Kenya the seat of its second largest foreign mission in the world after London. Furthermore, the EU High Representative Foreign Affairs and Security Policy, Federica Mogherin said, "We see Kenya as not only a gateway to the region and to Africa but also as an important hub. I was pleased to inaugurate our new EU embassy here in Nairobi; it is the second largest in the world and this is not by coincidence," and she added that, "Our investments both economically and politically, in terms of security cooperation is key for the European Union and we value Kenya's partnership enormously." ### Comments:

The unveiling of EU's second largest embassy in Kenya is coming at a time when Kenya's colonial master, Britain, is at loggerheads with EU on the issue of Brexit. Furthermore, the EU is at the center of a 21st Century economic war currently being spearhead by America under its slogan "America First." To make matters worse, its African colony is oscillating towards China in terms of trade partnerships amongst other initiatives.

EU chose Kenya since it is the third heart of Britain after South Africa and Nigeria and so is America's prime target for its initiatives in the Central and East African region. That is why America invited President Uhuru Kenyatta to the White House on Monday, 27 August 2018 to woo Kenya and Theresa May visited President Uhuru Kenyatta on Thursday, 30 August 2018 to stamp Britain's authority in Kenya!

The launching was precipitated by the above factors and is part of a wider plan by the EU to reposition itself in the African continent where Britain has huge muscles informed by the so-called Commonwealth countries including Kenya. In addition, it confirms that the EU is only concerned to preserve its interests on the African continent that serves as its colonial farm and whose purpose is to plunder its resources, to dump their finished products through its numerous policies (such as, the European Partnership Agreements (EPAs), Common Agricultural Policy, Joint Africa-EU Strategy (JAES)), and to continue to enslave its people into serving them in their latest global reorganization initiatives!

The most disheartening part is that Kenya and Africa at large remain silent and work in partnership to realize the plots of the Western colonialists who are the root-cause of their political, economic, social and educational stagnation for centuries since the 16 Century to date! They achieved to do that through their implementation of their invalid secular capitalist ideology and its evil systems including that of democracy, social liberalism, and economy based on taxation and usury etc... The West is still in charge but indirectly managing their African colony through their respective agent rulers whom they put or retain on positions of powers. Colonial agent rulers are ready to make the lives of their citizens miserable by implementing policies and laws drawn and approved by their Western masters led by America, Britain, EU (Germany, France) etc... Some of the policies and laws include the fight against Islam and Muslims under the pretext of combating terrorism and violent extremism in Africa. These policies have led to the profiling, harassment and massacring of Muslims across the continent.

The most radical step for Kenya and Africa at large to take is to embrace the Call for the resumption of the Islamic way of life via the reestablishment of the Khilafah (Caliphate) on the method of Prophethood. It is only the Khilafah that can genuinely liberate Africa from the iron fists of the Western colonialists. The Khilafah founded on the method of Prophethood will implement the Shari'ah (Qur'an and Sunnah) only and whose criterion of measuring actions will be Halal (permitted) and Haram (prohibited) and not the secular capitalist measuring of actions anchored on interests/benefits! Africa's true potential will be fully realized under the guardianship of the just Khalifah (Caliph) who strives to seek the pleasure of Allah (swt) unlike the agent rulers who are striving to please their colonial masters! The Khalifah will act as a shield to all the citizens (Muslims and non-Muslims) in the Khilafah and guarantee them with genuine tranquility, development and prosperity regardless of race and religion.
