

Press Release

On the Island of Al-Warraq, the True Picture of the Capitalist State of Taxation is Apparent: So Over throw it, O People of Al-Kinanah

(Translated)

Al-Warraq Island and other islands, rather all the areas called the random houses ('Ashwa'ya), and even the whole length and width of villages and cities of Al-Kinanah (Egypt) show us the true face of this system of benefit, which does not care of the poor people of Egypt and has no understanding of the concept of care.

Regardless of the reality of the conflict over the island and what is said about the abuses of its people, it is not the right of the ruler or the state in any way to banish people from their homes, land and work that they must care for their affairs in the absence of the state, which is the one responsible for this matter.

O people of the Kinanah! Your rulers have not provided you with the minimal levels of care except as an anesthetic and as a material and a tool for begging and blackmail, to take out what is left in your pockets of savings, without which your life and subsistence is rough as you see. On top of that, they have imposed themselves on you and did not get to rule your country in a legitimate way, and did not rule you by Islam, so you are not obliged to obey them. You have to over throw them and establish instead the Khilafah (Caliphate) on the method of Prophethood that will truly look after your affairs.

The duty of the State towards its citizens (which we have not and will not see under this system) is to provide for each of them, irrespective of religion, colour, race or sect, **three issues:** food, clothing and housing with sufficiency, and it must also provide for the whole society three issues equally: security, education and health care at the best possible level provided by the state, no difference between rich and poor, neither Muslim nor non-Muslim, yes this is what the state should do to its citizens at the level of the individual and society. No one must say that Egypt is poor; Egypt has bounties, wealth and resources, and with what is within its current borders only, it can become a superpower if it becomes an ideological state, i.e. the Khilafah state on the method of Prophethood.

The absence of the concept of care and substituting it with the concept of benefit and the tax collection is a pillar of capitalism that governs Egypt and the whole world now. The world has suffered from it and will continue to flounder and get caught up in its fire until the Khilafah state is established on the method of Prophethood, which Hizb ut Tahrir invites you to work for, and provides you with a project ready for its implementation. It only lacks the sincere men of the Kinanah army, to give the pledge and support and direct their weapons to the correct target, and then they will remove these rulers and establish the Khilafah (Caliphate) state so its goodness is enjoyed in Egypt and the Ummah and even the whole world, the birds, the stone and the trees. O Allah let it be established soon, O Allah make us its witnesses and army.

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا اسْتَجِيبُوا لِلَّهِ وَلِلرَّسُولِ إِذَا دَعَاكُمْ لِمَا يُحْيِيكُمْ﴾

“O you who have believed, respond to Allah and to the Messenger when he calls you to that which gives you life.” [Al-Anfal: 24]
