Shouldn't the Jordanian Regime be Ashamed of Arresting the Guardians of Islam?!

(Translated)

The Jordanian regime's security apparatus arrested one of Hizb ut Tahrir's *Shabab*, Brother Yousef Ridwan Muslim Muslih, on Monday 28th March 2016. He was transferred to court Wednesday, 30/03/2016, accused of belonging to an illegal organization, Hizb ut Tahrir, in the wake of the Hizb carrying out several activities on the sixth remembrance of the outbreak of the blessed Syrian revolution under the slogan: "*The Syrian people are our people and not refugees*". The activities included visits carried out by the Hizb's *Shabab* to their brothers from Syria in their living areas, where the Hizb addressed them with the fact that they are the attribution and the delight of the eye. It also addressed the Jordanian people, asking them to take the hands of the Jordanian regime to account in a political earnest manner concerning what the regime is doing on behalf of the Syrian people's rights from defeat, humiliation, conspiring against their revolution and exploitation of their affliction so they have to beg, as well reminding the Jordanian people that the Muslim brother should support his Muslim brother.

O Muslims in Jordan:

The regime's resentment and enrage towards the delegations which were established by Hizb ut Tahrir in the different areas of the country to visit your kinsfolk and people in the Zartari refugee camp, ensures the Jordanian regime's insistence upon the annulment of the brotherhood of Islam and *iman* between Muslims and the destruction of the sense of honour and chivalry in the souls of the Muslims in this country with goodhearted people. What Yousef Ridwan, his brothers from the Hizb and those who joined them of the Muslims did is a Shari' duty, in it lies reward and retribution first and foremost from Allah and in it lies honour, nobleness, enthusiasm and an aspiration to withhold the Islamic brotherhood. The acts that Yousef Ridwan, his brothers from Hizb ut Tahrir and the general Muslims carried out, are acts that deserve imitation, praise and appreciation not arresting, banishment and trials!
