

Press Release

THE VISIT OF NETANYAHU IS DESRUCTIVE THAT DESERVES NEITHER JUBILATION NOR HOSPITALITY: IT IS YOU AND YOUR STATE THAT SMELL THE INNOCENT BLOOD OF DEFENCELESS PEOPLE

The Zionist Prime Minister, Benjamin Netanyahu, is currently on an official journey to southern Sahara countries in Africa. His visit commenced in Uganda, followed by Kenya, Tuesday 04 July 2016. Then headed to Rwanda, before finally visiting Ethiopia. This being the first visit of a Zionist leader to Africa since the visit of Yitzhak Rabin, the fifth Zionist prime minister to visit Morocco in 1994. Netanyahu called this visit a litmus paper for "Israel to return to Africa immensely." The shameless man roams Africa feigning to preach peace, war against terror and establishing diplomatic relations between his authority and African countries in an endeavour to improve agricultural and health sector.

Indeed, **Hizb ut Tahrir** Kenya, would like to elucidate on this visit through the following crucial points:

Firstly: It is overwhelmingly true that bitter resentment against the outrageous crimes committed by the Zionist rule continue to reign the air globally including Africa. Therefore his visit is solely meant to entice Africa to continue support this oppressive rule. Putting in mind many African countries unceremoniously severed diplomatic relations with his brutal country following the 1973 war, when Egypt in liaison with Syria ferociously fought against that country. It is quite commiserating to note that the entire African continent is still being ruled by effete leaders who cannot adamantly withstand foreign political pressure, because it is still under the heinous yoke of neocolonialism and it is not actually independent. This in turn makes African an easy prey to colonialists' and their puppets' maneuver.

Secondly: Indeed Netanyahu is a shameless fellow who impetuously rants and raves and acts according to his whim. Who is he who feigns to preach peace and order, while he himself is an immortal symbol of anarchy? Netanyahu does not deserve the time to discuss preach and order, because under his American clergies he personally led an ambush against PLO camp in an operation known as Operation Inferno. Does Netanyahu think the world has forgotten the odious acts committed by his own bloody hands in Karamah War (War of Attrition) in 1968? Does this brutal infanticide, women and elders' killer presume that nobody knows about the treason of his own reign in the violation of the so called peace treaties? Truly this savage fellow does not deserve any hospitality. When he discusses peace with the Palestinians, it

only means that his uncivilized soldiers continue to shed the blood of innocent Palestinians without the slightest fear of retribution or retaliation from the oppressed.

Thirdly: It is now as clear as the bell that the war on terror is a matter of life and death to the westerners who are the architects of the definition of terrorism and terrorists. It is also crystal clear that the African countries are employed to fight this war, which actually, is nothing but war against Islam. It is imperative for the African continent to realize that the western colonialists create the war on terror an effective an easy tool to enable them to pilfer the resources of the African countries including Kenya. It is well known that his intelligence agency Mossad collaborates with African countries including Kenya in the atrocious extra judicial killings of Muslims under the pretext of combating terrorism. It is the same Zionist authority that committed worlds horrendous terrorism when it ousted innocent Palestinians from their indigenous land and set ablaze their settlements estimated to be more than 700,000 in the quest to establish the Zionist entity. Though this atrocious act was never termed an act of terrorism. This gives a clear picture that terrorism is solely defined by America: the main sponsor of the Jewish entity. All this, yet Netanyahu had the audacity to visit Rwanda and sternly lectured about the 1994 genocide. If terrorism actually exists, then the Jews along their ardent and compassionate guardian America, should rank at the top of the terrorist list.

Fourthly: It is awfully shameful for African leaders to continuously be seen relying on foreign aids in an endeavour to cater for their own peoples' healthcare, education, transport etc. The commercial relations between the Jews and Africa are a means of allowing capitalist parastatal organizations to continue with their economic slavery in Africa which continues to be economically looted and oppressed for no other reason save its erroneous decision to embrace the greedy capitalist ideology. This continent can never be salvaged from the economic burden by sheer depending on foreign loans that in turn bring along them huge interests.

Fifthly: It is open that what brought this brutal murderer is nothing but to try to conceal the claws of capitalism that continue to colonize the world economically, politically and socially. It is clear this visit came as a result of some directives from the American bosses who are a staunch supporters of the heinous Jewish entity's murder. The only state that can brazenly stop all the Jewish atrocities against the innocent creatures of Allah Taalah is the Khilafah State (Caliphate) upon the method of the Prophethood; it has the power to terminate the arrogance, pride and prejudice of the Jews. Attributes which have rendered their behavior repulsive.
