

### Press Release

## **O People of Yemen: America with its Forces is Dirtying your Land, so what are you doing?**

(Translated)

The spokesman for the US Defence Department stated that the US is providing "limited support" to the forces of the Arab Coalition and the Yemeni forces deployed in the city of Al-Makla and the surrounding areas. He mentioned that the support comprises of planning, air surveillance, gathering of intelligence information, medical support, refuelling and maritime interception whilst there is a small team involved in providing logistics support only. Davis refused to talk about the presence of US special forces inside Yemen although he said that his country had sent a number of ships to the region (the Gulf) including an amphibious assault ship, the USS Boxer and a unit 13 of marines which is attached to the two destroyer warships, the USS Gridley and the USS Gonzales which are also both present within the region. On the 24<sup>th</sup> of last month, the Yemeni forces supported by coalition forces were able to enter into the city of Al-Makla, the centre of the Hadramawt governorate which has been under the control of Al-Qaeda for the past year. That is whilst it was mentioned on the Houthi backed satellite channel "Al-Maseerah" when they reported from whom they described as "special sources" that 15 Apache aircraft and 5 Black Hawk aircraft attached to the US army had arrived to the Al-Anad Base?!!

Yemen, with what Allah has bestowed upon it in terms of strategic location and a variety of natural resources has become the focus of the greedy colonialists who have been struggling with each other over influence and its resources for a number of years. So here you have America, the enemy of Islam and the Muslims, not finding it sufficient to hatch conspiracies, manufacturing agents, cultivating Fitnah, fanning the flames of sectarianism and regionalism and inciting wars amongst the people of Yemen. So it is now come to it with its armed forces to befool the land of Yemen under the pretext of fighting against terrorism even though it is the mother of terrorism and its maternal aunty. All of that whilst the parties involved in the struggle, whether that is Hadi and his supporters or the Houthis and their allies, are merely watching or indeed welcoming that, in spite of their slogans that sing the praises and laud sovereignty. Indeed, in spite of the hostile slogans aimed at America or those slogans that call for Yemen to be saved from the Iranian intrigues and schemes whilst those same people are not shy when they are rejoicing about the American armed forces?!!

We are not surprised by the stances of those struggling with each other and who have become cards in the hand of the foreigner, whether these are American or British hands. They are the ones who are paving the way for the entry of the colonialist forces

whilst attempting to pacify the Yemeni people to accept them whilst at the same time striking the slogans about sovereignty that they laud and carry against the wall as if they are unaware. Indeed, both of these sides and parties will be brought together in partnership to combat the very same terrorism that they had been chanting to be an American creation, regardless of how much some of them declare their rejection of that, in an attempt to deceive the people of Yemen. However, never will their weapons be mobilised towards the colonialist and its forces since they are struggling in service to it!

The colonial Anglo-US struggle over Yemen under the candle of terrorism is clear to every aware person who has Taqwa because both countries want to consolidate their foothold within Yemen in a feverish contest for influence and resources that will continue until one of them defeats the other or they agree to share the cake between them.

**O People of Yemen**, the affair of those who are dialoguing and struggling with each other has become evident to you in terms of their crimes and their acts of agency they are doing. You have been burnt by the fire of war that they have ignited under slogans and justifications of which you have come to know their true reality when they brought the colonialist forces to your land. The priority of these who are involved in dialogues and in struggles, if they are sincere and truthful, would be to prevent the wars between them, expel the disbelieving colonialists, turn to the judgement of the Shar'a of Allah and establish the rightly guided Islamic state upon the methodology of the Prophethood. However, the time has come for that but they are worms that eat away at the land and its people making their politics shamelessness and calling their fighting amongst each other victory and martyrdom!! As for how they act and deal with the enemies then it is as the poet said:

*A lion against me and in the wars an ostrich*

*Turning ashen jumping in fright from the whistle of the whistler*

The entry of the American colonialist forces into the land of Yemen does not bring goodness. That is because all that America did in Afghanistan, Iraq and Somalia amongst other lands in terms of heinous crimes, all of that takes place in the absence of the state of Islam and of the Muslims, the Khilafah state, which the Muslims in these days are passing through the anniversary marking its fall and abolition at the hands of the Arab and Turkish traitors with conspiring Britain behind and directing them.

**O People of Iman and Hikmah (Belief and wisdom)!** The hope rests upon you and upon your awareness of your Deen and your vital issues which your existence in turn rests upon. So go forth to work alongside the sincere who are working to reveal the true reality of the conspirators and to establish the rightly guided Khilafah state upon the methodology of the Prophethood which will safeguard your blood, preserve your dignity and expel the intrigues of the disbeliever colonialists. Verily, in this is a far reaching word for a people who worship.
